PQP

PERSONALITY & QUALITIES PORTFOLIO

Scientifically Validated

A work-based, scientifically proven assessment trusted by 500+ organizations worldwide.

Faster Productivity

Accelerate onboarding by 65% new hires reach full productivity weeks earlier.

Hiring Accuracy

Reduce mis-hires by up to 87% and dramatically improve role and culture fit.

Retention & Performance

Achieve up to 92% retention and measurable performance gains across teams.

In today's competitive talent market, every hiring and development decision matters. **IBDL PQP™** eliminates guesswork by providing data-driven insights into professional personality traits that directly predict workplace success helping organizations hire better, develop faster, and retain top talent.

PERSONALITY & QUALITIES PORTFOLIO

Your Complete Talent Intelligence Journey

IBDL PQP™ (Personality & Qualities Portfolio) is not just another personality test. It's a comprehensive, scientifically validated work-based assessment designed specifically for business environments. Unlike generic personality tests, PQP™ focuses on the traits that actually matter in the workplace.

20 critical professional personality dimensions divided into 2 scientifically validated scales:

1

Behavior Scale

Measures Observable Behaviors:

- Leadership style & approach
- Planning & organization
- Work style preferences
- Team interaction patterns

2

Motives Scale

Reveals Core Motivators:

- Need to complete tasks
- Achievement drive
- Control & influence needs
- Internal behavioral tendencies

Key Applications Include

- Recruitment & pre-employment screening
- Job-fit analysis and hiring decisions
- Leadership identification and development
- Team building and performance optimization
- Workforce planning and succession planning
- Training Needs Analysis (TNA)
- Organizational culture and behavior mapping

PQP™ Is Used Across the Talent Lifecycle

IBDL PQP™ supports organizations across multiple talent management use cases, making it a versatile solution for both HR and business leaders.

Reports & Platform Outputs

What You Get

- Individual professional profile reports
- Job-fit analysis with management recommendations
- Automated, competency-based interview guides
- Organizational behavior mapping
- Training Needs Analysis (TNA)
- Performance and development roadmaps

PERSONALITY & QUALITIES PORTFOLIO

Proven Results & Global Adoption

Organizations using IBDL PQP™ consistently report measurable improvements across hiring, performance, and retention.

87% Reduction in mis-hiring decisions

92% Employee retention rate

65% Faster onboarding and time-to-productivity

89% performance Improvement in team performance metrics

Transform Your Talent Strategy Today

The cost of a single mis-hire extends far beyond the replacement expense – it drains team productivity, damages morale, delays projects, and erodes client confidence.

PQP™ isn't just an assessment - it's a complete talent intelligence platform that transforms every stage of your employee lifecycle.
